VCI-300 MkII

As result of a close alliance between Vestax and Serato, the VCI-300 has become the top standard for professional Dj's.

Simplicity, precision and perfect audio control are the key factors that lead the VCI-300 to its success. The Dj-friendly layout fits to any style of mixing, and the strong compact size body allows you to carry the VCI-300 to any gig.

With the VCI-300, the future style of Djing has never been closer !

serato
ITCH

VFX-1

One Controller. Two software.
Thousands of possibilities !

Dedicated to control effects of Serato software, the Vestax VFX-1 now plays on both battlefields, filling up the gap between Itch and Scratch Live. Smart and handy, the smallest of professional controllers opens a new path of creativity for all Serato Djs. Express yourself. Twice.

VCI-100 MkII

The ultimate machine for sensational music creators

Thanks to the ready-for-Traktor design, the VCI-100MkII leads your mix to an unsurpassed level of creativity. Along with the built-in audio interface and the compact body, the VCI-100MkII will become your favorite performance tool on the road.

Get to the core of your passion, anywhere & everywhere.

TYPHOON

Your first step in the world of Djing

Turn your computer into a real Dj booth with Typhoon! Easy to use and highly reliable, Typhoon will follow you everywhere you take your laptop. Thanks to the built-in audio interface and the plug-and-play facility, all you need to do is connect the Typhoon to your Hi-Fi system and start the party !

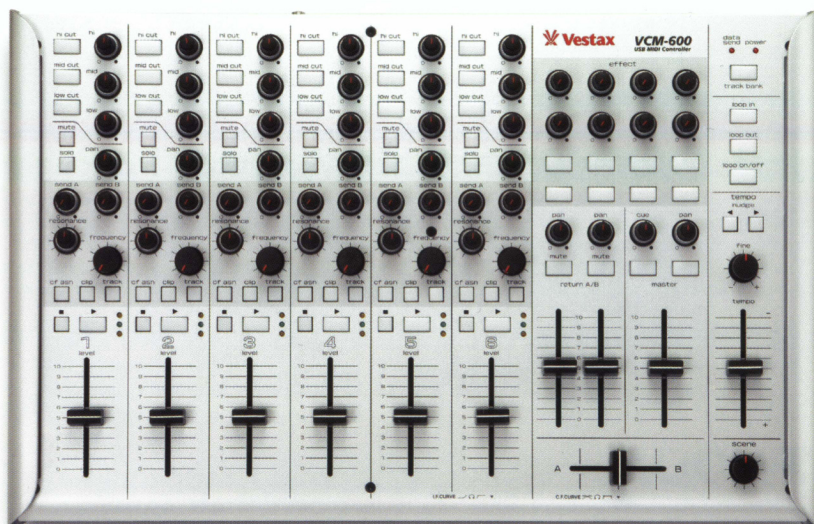

VCM-600

Certainly the best controller for Ableton Live.

No motorized faders, no encoder on tracks, but 100% Dj style high quality faders and rotaries : this is the philosophy of the VCM-600, which perfectly lives up to the demand of professional Djs performing with Ableton Live.

PAD-One

Tough as a Rock!

The highly resistant die-cast aluminium body of the PAD-One protects the finest electronic components, offering the best control over your music. The PAD-One can individually assign samples on the fly, and shows you each pads MIDI value on the 7 seg indicator. Control Change function and Aftertouch makes you able to control much more than Cue points or Beats : you can easily control parameters such as Filter Cut-off, Effects, Volumes, etc.

Djs, Beatmakers, Producers : get ready for a lot of fun and excitement !

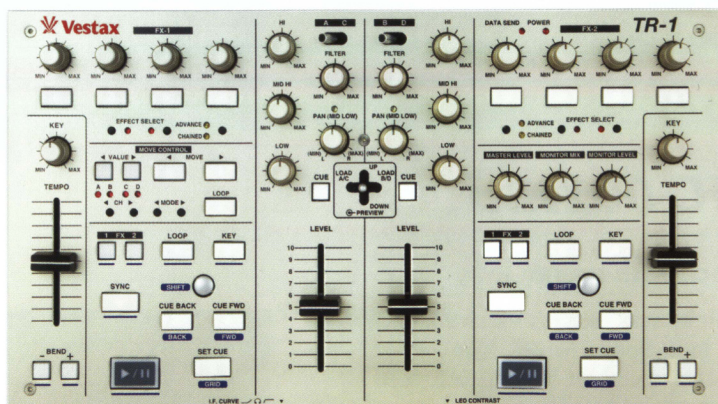

TR-1

Because Pros deserve perfection

Made from the collaboration between Vestax and top Japanese House Dj Hiroshi Watanabe, the TR-1 is the most radical DJ controller out of the Vestax product range, designed from professional expectations.

Apart from the traditional concepts, the TR-1 is a extremely ergonomic and specific item, that answers to Professional's requirements.

PMC-580

Superstar

The high-end PMC-580 features a 6 effects processor per channel with independent parameters, plus a Master effect unit. The digital core and the top quality pre-amps guarantee a warm and perfect sound quality for smooth and precise mixes. Clever functions such as 2 band Eq on Booth and Monitor outputs, Master and Booth XLR outputs, powerful headroom and Cue Monitoring on Booth Output are the answer to a highly professional demand.

The PMC-580 is the ultimate control center that gives you the power to rule the crowd.

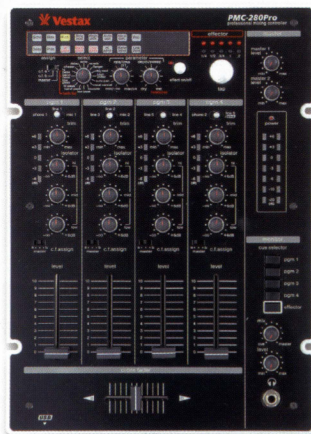

PMC-280

Make the choice of the power of sound

Having Vestax's high quality pre-amp at its core, the PMC-280 offers a powerful warm sound incomparable to other mixers in its price range. The 16 digital built-in effects features realistic and deep filters, to generate dramatic sweeps in smooth mixes. The high-power audio output makes the PMC-280 able to control the biggest sound systems without distortion.

The spirit of ravers is here !

PMC-05Pro4

Keep the Legend alive

Created to become the new standard for Turntablists, the most influential DJ mixer series in the world is back with the latest technology upgrades. Control your Cues, Loops, Samples and browse your crates via the dedicated Midi layout ; power your performance skills with the new magnetic crossfader and the 3 band isolator on each channel.

Test it. Love it. Own it.

VMC-002Xlu

Compact, with sound

Hidden in its small body is Vestax's knowhow of analog technology. Simple and stylish, the VMC-002Xlu covers all features you need when getting into the perfect mix. Sound quality and XLR output turns this compact mixer into a powerfull device for all style of Djs.

VMC-004Xlu

The polyvalence for all

Well sized and stylish, the VMC-004Xlu offers numerous inputs for many applications. The XLR output, the USB in/out and high quality components make this mixer a universal tool for Djs from all horizons.
