# Spin2

## djay for Mac included

**Mix songs from your iTunes library on iPad, iPhone and Mac, with Spin2 and Djay.**

Spin2 is an all-in-one DJ controller and studio grade audio interface, made for Algoriddim djay, the most popular DJ App on the App store. Full with essential DJ tools for all DJs, Spin2 turns your Mac, iPad and iPhone into a full blown DJ system suitable to party rock the crowd, and create remixes with your favorite tracks in iTunes.

You can also turn Spin2 into a powerful video mashup machine, directly integrated with the media libraries on your iPad, using the vjay app from Algoriddim.

Spin2 connects to your Mac with a USB cable and to your iPad®, iPhone® and iPod touch® with the integrated dock connector.

Full support for iOS6, with stereo Master and headphone output

Spin2 charges your iPad®, iPhone® and iPod touch® so you don't run out of juice

# PBS-4

## WEB BROADCAST

### Simple solution for personal broadcasting

The PBS-4 is an easy to use all-in-one solution to broadcast live audio and live video content on the internet.

Multiple audio and video sources can be mixed together, and instantly streamed online towards a world wide audience.

The USB output feeds the mixed audio and video to your computer and streams your content to any live streaming service including Ustream, Justin.tv, Livestream and more.

Power adaptor : DC 6V 3A / Vestax SDC-6  
 Dimensions : 210(W) x 147(D) x 54(H)mm (including knobs)  
 Weight : 1.0kg

Video format (in/out): NTSC, PAL  
 VGA IN (NTSC) : 1024x768 (60Hz)  
 VGA IN (PAL) : 1024x768 (50Hz)  
 HDMI IN (NTSC) : 720x480 (60Hz)  
 HDMI IN (PAL) : 720x576 (50Hz)

The PBS-4 is compact, travel friendly, and features a wide range of connections for your audio and video sources.

The simple interface and the quick setup features make the PBS-4 ideal for musical performances, live bands, DJs with video mixes, corporate events, seminars, e-learning, video game tutorials, church events, weddings, home TV studios, web radios and for any content you want to share live online.

The PBS-4 can also be used together with an audio and video capture software, to record your live content.

# VCI-380

PERFORMANCE CONTROLLER

serato  ITCH

## THE CONTROLLERIST

**VCI-380** is a powerful and creative 2 channel DJ controller with a built-in DJ mixer.

Designed hand in hand with Serato and bundled with ITCH, providing an arsenal of musical craft tools with perfect integrity, straight out of the box.

5

5 Performance Modes

The 2x8 premium FSR pads trigger 5 creative performance modes: Hot Cue, Auto Loop, Roll, Sampler, and the incredible Slicer from ITCH. The multicolor color LEDs behind the pads make each performance mode highly intuitive.

Scratch Jogwheels

Vestax has designed the ultimate jog wheel for every type of Dj. Wide, heavy but with perfect inertial action and superb friction that could only be felt on slipmats placed on turntables.

The Jog wheels torque can be adjusted to the Djs preferred tension with the Torque adjust control. The needle position indicator embed in the platter matches perfectly with the virtual deck in ITCH for accurate scratching and beat juggling.

Stand-alone Mixer

The two control channels of VCI-380 also function as an analog mixer, multiplying the possibilities of your Dj setup. 2 turntables, 2 CD decks or a DVS interface, the choice is yours.

PAD Fx

Experience the world's first PAD FX system with VCI-380 Pad FX are controlled by aftertouch of the trigger pads, and at the same time triggers each Performance Mode, creating unique and original combinations.

Amazing sound

The built-in 24Bit/48Khz Bit Perfect audio interface outputs the Djs mix via Balanced XLRs with amazing clarity and the Booth out adds flexibility to the audio setup.
