PBS-4
WEB BROADCAST

Simple solution for multi-sources web broadcast

The PBS-4 is an easy to use all-in-one solution to broadcast live audio and live video content on the internet.

Multiple audio and video sources can be mixed together, and instantly streamed online towards a world wide audience.

The USB output feeds your computer with the mixed audio and video of the PBS-4, and streams directly to any live streaming service including Ustream, Justin.tv, Livestream and more.

VCI-380

PERFORMANCE CONTROLLER

Plug and Play with

serato DJ

VCI-380 RED

VCI-380 WHITE

- POWER : SDC-7 Power Adaptor
- DIMENSIONS : 427(W) x 304(D) x 60(H)mm(excluding knobs)
- WEIGHT : 3.5kg
- Optional Power Adaptor: SDC-7

Compatible with

CF-X2
CROSS FADER UNIT

THE CONTROLLERIST

VCI-380 is a powerful and creative 2 channel DJ controller with a built-in DJ mixer. Designed hand in hand with Serato for Serato DJ, providing an arsenal of musical craft tools with perfect integrity, straight out of the box.

5

5 Performance Modes

The 2x8 premium FSR pads trigger 5 creative performance modes.Hot Cue, Auto Loop, Roll, Sampler, and the incredible Slicer from ITCH.The multicolor color LEDs behind the pads make each performance mode highly intuitive.

PAD Fx

Experience the world's first PAD FX system with VCI-380 Pad FX are controlled by aftertouch of the trigger pads, and at the same time triggers each Performance Mode, creating unique and original combinations.

Scratch Jogwheels

Vestax has designed the ultimate jog wheel for every type of Dj. Wide, heavy but with perfect inertial action and superb friction that could only be felt on slipmats placed on turntables.
The Jog wheels torque can be adjusted to the DJs preferred tension with the Torque adjust control. The needle position indicator embed in the platter matches perfectly with the virtual deck in ITCH for accurate scratching and beat juggling.

Stand-alone Mixer

The two control channels of VCI-380 also function as an analog mixer, multiplying the possibilities of your Dj setup. 2 turntables, 2 CD decks or a DVS interface, the choice is yours.

Amazing sound

The built-in 24Bit/48Khz Bit Perfect audio interface outputs the DJs mix via Balanced XLRs with amazing clarity and the Booth out adds flexibility to the audio setup.

FEATURES

- 2Channel USB MIDI controller for Serato DJ
- Built-in 24Bit/48kHz audio interface

VMIDI
### USB MIDI / CORE MIDI INTERFACE

FEATURES

- Core MIDI in/out interface
- Connects to any USB MIDI device to control more than 100 CoreMIDI compatible apps available from the App store
- The only Core MIDI interface compatible with iPhone®, iPad™ and iPod touch™
- Charges iOS devices and USB MIDI devices at the same time
- USB host IC connector for MIDI USB devices
- Stereo headphone output
- Headphone amplification & volume control
- MIDI send (iOS / Hardware) LED indicators
- Mini DIN(6pin) to USB convert cable included

- POWER : SDC-6
- DIMENSIONS : 95(W)x95(D)x38(H)mm
- WEIGHT : 150g

Discover the full potential of your iOS device with VMIDI

VMIDI is a clever Core MIDI interface with a powerful stereo audio output, made for all generations iOS devices.

Made for musicians, producers and artists on the move or in the studio, the VMIDI enables connection between MIDI controller harware (USB) and an iPad, iPhone ond iPod Touch.

In addition to get full control of your applications by your favourite controller, the VMIDI offers a loud line / headphone audio output, to release your musical performance.

VMIDI charges your iOS device battery, for endless performances.

On latest iOS devices generations, you can use the Apple 30-Pin-to-Lightening converter, without loss of performance. Sold separately.

PDX-3000MKII

"The only Turntable I trust is the Vestax PDX-3000MKII"

PMC-05ProIV

"The ultimate mixer for all DJs. Whether you party rock or battle this mixer has it all!"

D-STYLES

PDX-3000MKII

The turntable, simply the ultimate DJ interface

The media DJs play today may vary from what it once was, and the gear may have advanced over the years, yet the turntable still remains as a necessity for many. Why? Because the turntable remains as the only interface that allows DJs to play and control music with the simplest, but diverse maneuver. The amount of data analog turntables and vinyl feed to the DJ is massive and far more complicated than it is considered. The vibration to the finger tips, width an feel of the ditches is a few and it's impossible to digitally simulate such factors. Vestax knows the importance of the turntable, and continues to produce quality interfaces, which will connect the DJs sensibility with music.
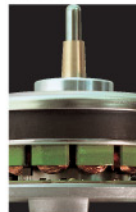

- A.S.T.S. straight tone arm
- Torque & Break adjust
- 60% ultra pitch control
- Powerful direct drive DC motor
