

PMC-05ProIV BLK

 PROFESSIONAL MIXING CONTROLLER**NEW COLOR!**MAR 2010 RELEASE
PMC-05ProIV

FRONT

A NEW DECADE

INTRODUCTION

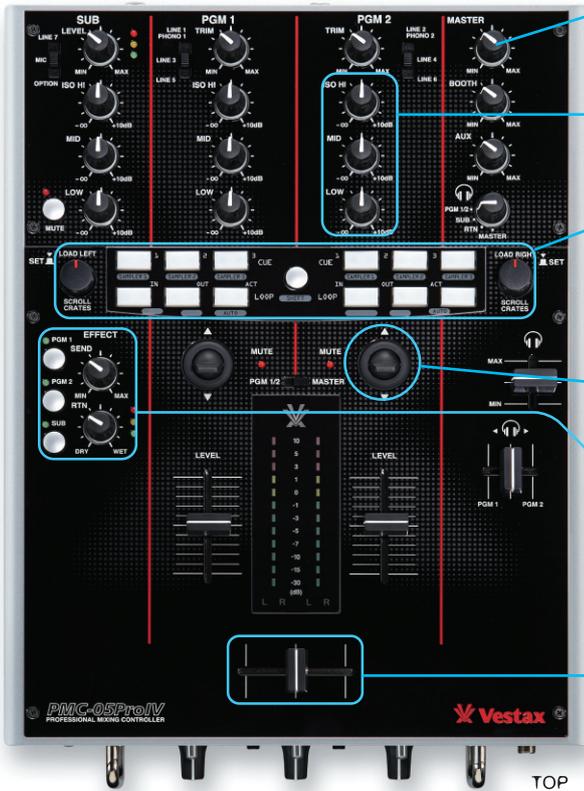

The Vestax 05 series is a mixer of history within the DJ industry. Every 05 model has played its roll in the DJ scene and is one of the most influential DJ mixers in the world.

The latest of the series, PMC-05ProIV is at the pinnacle of DJ mixer technology. Fused with MIDI functions, professional sound quality, signature 3 band isolators and a digital crossfader, the PMC-05ProIV brings you the future.

Added to the family is the new Black PMC-05ProIV BLK, with new silk layout.

FEATURES

- > CF-X2 digital non-contact magnetic fader with adjustable cut lag sensitivity.
- > MIDI assign section to control various DJ software
- > High quality 3 BAND ISOLATOR.
- > Carefully designed control layout to pursuit operability.
- > Transformer switch with MUTE LED indicator
- > Extensive inputs and outputs meeting all professional demands. (MIC / LINE / AUX/ XLR OUT, PGM THRU IN, PHONO/LINE select switch, 1/4inch booth out)

ERGONOMIC CONTROL KNOBS

Ergonomic design control knobs with anti-slip coating provide the perfect touch to make accurate adjustments.

3 BAND ISOLATOR

Vestax signature infinite cut isolators on each channel.

MIDI FUNCTION

Knobs and buttons of this section, along with the transformer switch, input faders and crossfaders can be assigned with MIDI to control features of DJ software. CUE points and loops can be triggered on the fly, expanding the level of DJ performance.

TRANSFORMER SWITCH

New strong switch design that lives up to hours and hours of aggressive performance.

EFFECT SEND/RTN

Hook up external effect devices to add a spice to your mix or routine. Effects fed in can be applied to each PGM channel and AUX.

CF-X2 DIGITAL FADER

The new CF-X2 digital non-contact magnetic fader offers stressless action with smooth and sharp movement. You will experience long lasting durability and smooth audio transmission with no noise.

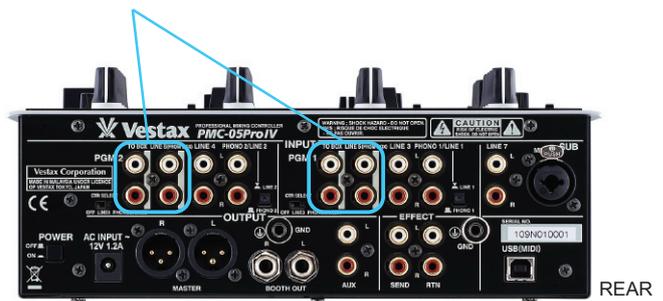

CONNECTION

DVS*1 BOX IN / OUT

Exclusive IN/OUT connection for DVS interfaces. No hassle plugging/unplugging turntables and CD players at venues and also offers better sound quality.

*1 : DVS=Digital Vinyl Simulator
