

# Typhoon USB MIDI&AUDIO CONTROLLER

 **TRAKTOR LE**

## Everything you need to DJ with Typhoon!

### INTRODUCTION

Typhoon is an all-in-one bundle of digital DJ hardware and software, offering total control to mix, scratch, and play music as a DJ would right at your fingertips. The included software transforms your computer into a full-blown DJ system. Whether for the beginner or seasoned pros alike, plug Typhoon into your computer and you become a DJ.

### WHAT'S NEW

Operates with Mac and Windows systems / ASIO driver for operation with Windows

### FEATURES

- > Touch Sensor Jog Wheels : High resolution, touch-sensitive jog wheels enable the user to DJ like in analog mode when scratching or mixing;
- > Multi Channel Audio System : Typhoon comes with high quality sound for monitoring, master output and a separate microphone input.
- > Compact and Light : Completely travel friendly, the unit is perfect for users on-the-go. A simple USB cable and bundled software will have the user spinning wherever they please.
